Cardinal Health™ FLEXAL™ Comfort
Powder-free nitrile examination gloves

The best-selling¹ glove in the U.S. just got better!

Cardinal Health™ FLEXAL™ Comfort is the next generation of our FLEXAL™ nitrile exam gloves - combining excellent fit and comfort with improved protection from chemotherapy drugs and lab chemicals. And if that is not enough we have also added an FDA approved low dermatitis potential claim which makes this glove one of a kind.

Features and benefits:

- FLEXAL™ Level protection
 - Standard protection level within our High Use portfolio
- Latex-like min elongation² based on the min. ASTM standard³ which can help to **reduce cuff tears during donning**
- Low dermatitis formulation - reducing the risk of developing a type IV hypersensitivity to chemical accelerants
- Tested for use with 9 chemotherapy drugs⁴ according to ASTM D6978
- Tested against 19 common lab chemicals⁵ with 15 showing breakthrough times above 30min
- Premium box with dispensing film
- USP 800 compliant⁶

High Use portfolio: non-sterile exam gloves designed to serve a broad range of everyday clinical needs.

Flexal[®] Nitrile Exam Gloves

Powder-Free Non-Sterile Nitrile Examination Gloves

Flexal[®] Nitrile Exam Gloves offer an alternative to latex and other nitrile gloves currently available in the market today. They provide tactile sensitivity and protect the hands from potentially infectious materials.

Features and Benefits:

- Textured fingertips enable grip even when wet
- Helps deliver savings over most other nitrile exam gloves
- Tested for use with various lab chemicals and chemotherapy drugs¹

Cardinal Health Flexal Nitrile Exam Gloves, Powder Free, Non-Sterile XS, S, M, L, XL, 2XL

FLEXAL™ Nitrile Exam Gloves

Powder-free non-sterile nitrile examination gloves

Cardinal Health Flexal Nitrile Exam Gloves are truly a versatile exam glove while adding confident protection to health professionals in contact with bloodborne pathogens and infections materials. The Cardinal Health gloves are USP complaint to also protect against laboratory chemicals and chemotherapy drugs.

Nitrile Gloves, in cornflower blue, are easy to spot and is a popular choice over latex because it offers similar tactile sensitivity and strength without exposing individuals who have sensitivity to natural latex rubber. The Cardinal Health Flexal gloves are also powder-free to ensure laboratory samples are not compromised or contaminated. The Cardinal Health Powder-Free, Non-sterile Flexal Nitrile Gloves are made with textured finger tips to create a sure grip for better handling.

Features and Benefits

- Protects Healthcare Worker from Infectious Materials and Bloodborne Pathogens
- Provides Excellent Tactile Sensitivity
- Textured Fingertips for Improved Grip and Handling
- Larger Box Quantity to Reduce Waste
- Variety of Size Options
- Ambidextrous
- Safe to Use with Chemotherapy Drugs
